Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes have been made to the subject application:

In claim 1, line 22, "the voltage" should be changed to --a voltage--.

In the abstract, after "one and more metal substrate circuit boards", deleted "The opposed means for connecting the one or more metal substrate circuit boards to the tubular wall ends includes each metal substrate circuit board having opposed tenon connecting ends, and the means for mounting includes each of the tubular wall ends defining a mounting slot with the opposed tenon connecting ends being positioned in the mounting slots. Two or more metal substrate circuit boards each mounting LEDS can be mounted in the LED lamp."

Examiner's amendment has been made in order to comply with the 35 U.S.C 112, second paragraph, to put the abstract in proper format (The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited), and to place the application in a condition for allowance.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Art Unit: 2821

The cited art of record fails to teach a LED lamp comprising an electrical circuit means including at least one metal substrate circuit board which comprises opposed means for connecting the at least one metal substrate circuit board to tubular ends of the tubular wall of the lamp wherein the tubular wall ends including means for mounting the means for connecting and the at least one metal substrate circuit board with a combination of all the limitations as defined in claim 1. Therefore, claims 1-58 are presently allowed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Inquiry

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Trinh Vo Dinh whose telephone number is (571) 272-1821. The examiner can normally be reached on Monday to Friday from 9:30AM to 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Don Wong, can be reached on (571) 272-1834. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
